Joyce Metcalf

Yucca Valley

This town has a true gem in the Hi-Desert Nature Museum.

We all realize how difficult our economy is right now and how important it is to promote local interest. The museum provides very interesting opportunities to young and old alike.

They encourage local artists by exhibiting their talents, teach children about history, and offer a safe environment to explore nature. The staff is always cheerful and ready to answer any questions. Everyone should visit this truly wonderful and essential place.
